To Whom It May Concern

This is to certify that Ms. Khushi Soni, completed her 6 weeks (15 June- 31 July 2022) summer research internship on the project titled "Ecological and phylogenetic aspects of an avian aerial insectivore - Barn swallow *Hirundo rustica* in the Himalayas" under my guidance. She independently collected data on nesting behavior of Barn Swallows that included monitoring of active nests for clutch size, number of chicks and foraging behavior of the adults on the field site Purola in the Uttarakashi district and showed high level of sincerity in carrying out the tasks assigned to her. She was also taught the skills of mist-netting and bird ringing technique. I am absolutely confident in her ability to learn more in her domain. I wish her the very best in all her future endeavours.

Internship Certificate

1 March 2023

This is to certify that Damayanti Dasugupta worked in my lab - the Neuroethology lab on two projects:

1. Her main interest was in the neuroethology of sensory systems in insects. She joined and observed experiments in the lab on electrophysiological recordings from acoustic neurons in crickets.

2. Damayanti got involved with another team of students who worked together on gathering data on the performance of zebrafish on quantitative estimation tasks. In the course of 2 months of work she produced enough data to become a co-author on the work, and this work on zebrafish cognition has now been published on a pre-print server and submitted to a journal.
