Part A.1

Events/Seminars/conferences/workshops/Extension Activities organized

The academic session 2020-21 was truly a unique and memorable one. For the first time in its over two decades of existence did MH *Vatavaran* have a session that was almost entirely online. This was due to the unprecedented COVID-19 pandemic that disrupted lives worldwide. However, we

Miranda House UNIVERSITY OF DELHI

carried on with a host of activities with utmost zeal and turned the lockdown into an opportunity for a variety of green ventures.

The session started with a Webinar (via Google Meet) in collaboration with the Department of Political Science, Miranda House on 28 August 2020. The topic for the webinar was '*The Role and Relevance of Alternative Medicine and Ayurveda in the Context of contemporary Times*'. Prior to the starting of the webinar the participants were shown a short presentation on the activities of MH *Vatavaran*. The distinguished panellists for the webinar were Dr. Bijayalaxmi Nanda, Acting Principal, Miranda House, Professor Madhulika Banerjee, Department of Political Science, University of Delhi and Dr. Harilal Madhavan, Indian Institute of Science Education and Research, Thiruvananthapuram. They enlightened the students on this very pertinent and contemporary topic. The webinar was followed by a word of gratitude for the esteemed panellists and for Dr. Bani Roy, a senior professor from the Department of Chemistry, Miranda House, who had served as the Convener, MH *Vatavaran* for many years. Total 72 participants attended the event.

On the occasion of the *World Ozone Day* on 16 September 2020, MH *Vatavaran* organised a Poster Making Competition on the theme '*Ozone for life: 35 years of the Ozone Layer Protection*'. Students participated enthusiastically; eighteen entries were received: twelve in the digital category and six in the handmade category. Total 28 participants attended the event. The winners of the competition: a tie for the first position - Akanksha Anand and Aayushi Sahay, the second prize went to Nancy Fevrier while Srishti Goyal and Omja Tiwari received Special Mention Certificates. This event was followed by *SuperheroU*, a highly innovative competition organized with *Globalshala* wherein volunteers were required to design a superhero that could deal with the present environmental issues.

Wildlife Week was celebrated from 2 to 6 October 2020. On this occasion, the College of Vocational Studies, University of Delhi collaborated with MH *Vatavaran* - keen volunteers from the society attended events such as '*Fun with Fauna*', a film screening and a *Group Discussion Vartalap 2.0*. Apart from this collaboration, MH *Vatavaran* also organised a poetry writing competition in Hindi and English to commemorate the same week. The first prizes went to Anushka Tiwari and Aayusi Sahay. The second to Ojaswita Pant and Gitanjali Sharma and the third prizes went to Anushka Dayal and Raveena.

From 26 October to 1 November 2020, the society organised an '*Upcycling Week*' on the theme '*Innovative Green Living*'. Total 40 participants attended the event. The participants made innovative and useful things out of waste material; they made slippers, lampshades, bookmarks, calendars, folders, hairbands, woollen toys, photo frames! They shared videos of these which were posted on the society's social media handles. This was one of the most interesting events and saw enthusiastic participation from a number of students.

On the occasion of Diwali, MH *Vatavaran*, in collaboration with the Department of Philosophy, Miranda House, made an awareness video reiterating the importance of adhering to the ban on fire crackers and other environmental issues.

On 25 November 2020, the new members of the society attended the orientation session and were briefed about the various activities conducted by the society – composting of biodegradable garbage and paper recycling to name two important activities being carried out in the college over the last many years and also those being conducted during this different online academic session.

Since the last few years, MH *Vatavaran* has been collaborating with WWF for *Project ECHO* (Environment Conservation Heroes). The collaboration has continued this year as well. The four -

Miranda House UNIVERSITY OF DELHI

member team includes Komal, Ishika Bansal, N. Varalakshmi and Manshi Kumari. The team launched a competition named '*Old is Gold*' with an aim to revive traditional eco-friendly recipes. Many entries have been received from participants across all age groups, pan India and were popularised via various social media handles of MH *Vatavaran*. The first prize was bagged by Anushka Dayal, the second prize went to Kajal whereas three entrants received a special mention- Kritika, Harsha and Vini. All the recipes were featured in the *ECHO* magazine.

By the end of October, MH *Vatavaran* started its own blog project. Ujala Mall, the Zero Waste Project Head of MH *Vatavaran* and Abhina Jose, the Blogging head, have initiated this project. It aims to upload content on various locally and globally relevant environmental issues; articles related to the environment are shared and explained crisply so that the participants can benefit academically. The blog is also a platform to discuss and comment on environment-related activities. Online quizzes based on the published posts add value and quality. So far, a number of quizzes on diverse topics like waste management, flowers, composting and wetlands have been successfully conducted by Noor Mankotia, the Social Media Head of MH *Vatavaran*.

In January 2021, as a part of the Miranda House Freshers' Talent Search Event, MH *Vatavaran* organised a video making competition on '*Green Deeds*'. Total 31 participants attended the event. It was great to see the participants involving themselves in not only simple deeds like turning off lights and faucets, refusing plastic bags but also making new things, spreading awareness, planting herbs and trees and composting.

It was only in February that the first offline event was possible. This was a *Walkathon* conducted in collaboration with HPCL on 11 February 2021. Apart from student volunteers, the walk was joined by faculty members of Miranda House. Total 48 participants walked from the college campus to the HPCL Petrol Pump at Khyber Pass. The HPCL Coordinator addressed the group and talked about the importance of cleaner fuels and the other initiatives being taken by HPCL towards a clean and green environment. Realising that 'cleaner fuels' is a goal and that the future is electric cars, HPCL is setting up electric charging ports at their petrol pumps. Students were also familiarised with the various tests being conducted routinely by HPCL to check that the fuel being dispensed is pure and unadulterated. The group was also imparted with the knowledge of their rights as drivers of two-wheelers and motor vehicles, for instance, the right to get the tyre pressure checked for free. Thereafter, a pledge was taken where the participants promised to use petroleum products judiciously and spread the good word to other students and to family and friends. The participants were provided with white caps, T-shirts and '*Saksham*' banners. The entire group walked back to Miranda House carrying two banners displaying the logo of MH *Vatavaran*, some handmade posters and the '*Saksham*' banners. MH *Vatavaran* volunteers had also set up a plastic bottle garden in 2019. During the lockdown, the plants of this vertical garden had dropped. The students went back to the campus and restored the garden.

On the occasion of *Earth Hour*, which was held on 27 March 2021, MH *Vatavaran* conducted a poster making competition. To spread the message of observing the *Earth Hour*, the entries were compiled into a video which was shared with the College community on 27 March 2021. The best poster prize was bagged by Divya, the second prize went to Prateeksha, Ruchika and Vaishnavi whereas a special mention was given to Komal, Sundus and Muskan. The society encouraged all volunteers to keep lights, fans and other electrical appliances at their homes turned off from 8:30pm to 9:30pm, to the extent possible and also to routinely save electricity.

For Tempest, which is the annual cultural festival of Miranda House, the theme was '*Breaking the*

Miranda House

UNIVERSITY OF DELHI

Barriers'. Keeping this in mind, MH *Vatavaran* conducted a group activity- a video making competition on '*Celebrating Earth Day Together*'. The first prize was bagged by Gurnoor Kaur, Manisha Kumari and Manidipa Banerjee. The second prize went to the team of Angel Malhotra, Sandhya Kumari, Yoshita Bhardwaj and Shailza Bhati. The third prize went to Vanshika and Kumari Khushi. The prize winning entries were shared at the virtual Zoom meeting held during Tempest. The entries were once again compiled into a video and shared on 22 April 2021, which is celebrated as *Earth Day*, every year.

In April 2019, MH *Vatavaran* collaborated with *Aavya*, the Animal Welfare Chapter of Miranda House. We collectively urged students to watch a documentary '*Dominion*', an Aussie Farms production which has some renowned animal activists narrate the perils faced by all animals, be it in the entertainment industry or the food industry. Students were moved by the movie and wrote solution-based reports which featured on the MH *Vatavaran* blog.

On 19 April 2021, the society hosted Mr. Sanjeeva Kumar, IAS; Secretary, Department of Border Management, Ministry of Home Affairs and Member Secretary, National Disaster Management Authority as a speaker for a webinar on '*Whole of Society Approach on Disaster Management*'. Students were engrossed in the session and wrote highly detailed reports which were indeed praiseworthy.

During the same week, elections were conducted for the upcoming academic session 2021-22. The entire process was concluded in less than a week. The manifesto reading took place via a General Body Meeting on Zoom, followed by a short window for casting votes via a Google form. Volunteers were required to enter their voter IDs as a measure for ensuring fairness. The newly elected office bearers are- Komal, BSc (Hons) Chemistry, 3rd year as President; Ishika Bansal, BSc (Hons) Chemistry, 3rd year as Vice President, Ishita Sukhija, BSc Life Sciences, 2nd year as General Secretary and Gurnoor, BSc (Hons) Physics as the Joint Secretary. In addition to the office bearers, students were appointed for three more positions; Noor Mankotia, BA Programme, 3rd year shall continue as the Social Media Manager. The new Blogging Head is Shreya Pandey, BSc (Hons) Botany, 3rd year and the Project Zero Waste MH Head is Sindhu Khanna, BSc (Hons) Life Sciences, 2nd year.

World Environment Day was celebrated on 5 June by the release of MH *Vatavaran*'s online journal *Madhuban 2020*; '*Plant a tree, it's free*' a campaign to encourage and nurture tree plantation was also launched on this day. The results of the story writing competition, held in May 2020, on the theme '*Ecosystem restoration*' were also announced.

Throughout the academic session, the Department of Environment, Government of NCT of Delhi has been sharing with us directives, notifications and reading material in the form of brochures about environment-related issues like green crackers, pollution – noise and dust, tree plantation, saving water, single use plastic, *Graded Response Action Plan (GRAP)*, *Yamuna Action Plan (YAP)*, *Azaadi ka Amrut Mahotsav*. This information has been shared with the volunteers through Zoom meetings and *Whatsapp*. The volunteers are encouraged to spread the word further in their neighbourhood.

The session 2020-21 has indeed been an enriching experience for the MH *Vatavaran* members. This session has been a little different from the earlier ones where volunteers had been working at the Paper Recycling plant or selling recycled paper, paper products and compost all made at Miranda. However, be it online or offline, MH *Vatavaran* always stands true to its motto - *we welcome all shades, as long as they're of green*.

a senior professor from the Department of Chemistry, Miranda House, who had served as the Convener, MH *Vatavaran* for many years. 72 faculty colleagues and students across various departments participated in the Webinar.

WEBINAR ON "THE ROLE AND RELEVANCE OF ALTERNATIVE MEDICINE AND AYURVEDA IN CONTEXT OF CONTEMPORARY TIMES"

MH Vatavaran, In collaboration with the Department of Political Science, Miranda House, presented a webinar on 28 August 2020 on the topic "Role and relevance of Alternative Medicine and Ayurveda in context of Contemporary times". The webinar was chaired by Dr Bijayalaxmi Nanda, Acting Principal of Miranda House. The chief speaker for the event was Professor Madhulika Bannerjee from Department of Political Science, DU. Dr Harilal Madhavan from the Indian Institute of Science Education and Research provided essential insights on the topic. The webinar was conducted virtually on Google Meets App.

The event began with a sweeping discussion tracing the phenomenal growth and evolution of Ayurveda. The development trajectory of the school was traced with a critical appraisal of its pros and cons.

Ayurveda, as Indians and the world have known, is inarguably a treasure trove in terms of providing remedial solutions for age-old human pathologies, while providing a ceaseless scope of future research and development. The speakers threw ample light on the credibility prospects of Ayurveda, while taking into account side-effects, inter-alia, other things that Ayurveda accrues. The speakers eloquently talked about the avenues that the current crisis opens in terms of providing a market and consumer audience to Ayurveda and alternative medicines. The future prospects that Indian-based start-ups like Patanjali and the like have opened up were discussed greatly while also engaging critically with the question of how far is it viable for such indigenous start-ups to engage in profit making Viz establishing a robust market in the vicinity of Indian territory. Another critical aspect discussed was the patenting of India's ayurvedic medicines like Neem by nation states like USA and how such opportunistic acts are detrimental to India's claim of Ayurvedic history.

-By Nidhi Kanaujia, BA(Hons) Political Science, 2nd year

Miranda House UNIVERSITY OF DELHI

2. POSTER MAKING COMPETITION ON THE THEME 'OZONE FOR LIFE: 35 YEARS OF OZONE LAYER PROTECTION'

On the occasion of the World Ozone Day on 16 September 2020, MH *Vatavaran* organised a Poster Making Competition on the theme '*Ozone for life: 35 years of the Ozone Layer Protection*'. Students participated enthusiastically; many entries were received: both in the digital category and in the handmade category. The winners of the competition: a tie for the first position - Akanksha Anand and Aayushi Sahay, the second prize went to Nancy Fevrier while Srishti Goyal and Omja Tiwari received Special Mention Certificates.

LIST OF PARTICIPANTS	
1. Akanksha Anand	Anchal Verma
2. Aayushi Sahay	Shagun Paliwal
3. Nancy	Anuradha Sheoran
4. Noor Mankotia	Tanu Kumari
5. Srishti Goyal	Tanu Chaudhary
6. Omja Tiwari	Aarti Mahato
7. Archana	Sritha Parcha
8. Priya	Shruti Sharma
9. Minakshi Kumari	Ananya Singh
