

Miranda House

UNIVERSITY OF DELHI

Year 2017-2018

A lot of time, care and investment have gone into sprucing up the garden. The malis planted a variety of seasonal annuals and tended them with great care, nurturing them in the nursery before planting them in the college gardens. Their hard work has been amply rewarded and the gardens look beautiful. The sprawling verdant lawns of the college with their tall trees, perennial herbs and seasonal colourful blooms are a delight to watch. The students can often be seen clicking 'selfies' with the garden as a backdrop.

Almost all the plants have name plates in the college colours, bearing their botanical as well as common names, to familiarize the students with them. In the hostel lawn, the Royal Palms which had fallen due to age and termite attack have been replaced with new ones. The area outside the library just next to the college gate and college boundary has been beautified with cacti, succulents and bromeliads placed on stands specially designed for them. Landscaping of the area under tree canopies has been carried out by planting beautiful luxuriantly growing perennials all around their bases. New *Ficus panda* hedge has been planted in the lawn beside the Principal's office. This year the malis also prepared splendid baskets of some herbs which are gracefully suspended from stands in the canteen lawn and are the cynosure of all eyes.

The college participated in the 60th Annual University of Delhi Flower Show held on 23 February 2018 and swept the awards in almost all categories bagging the first position. The college won twelve prestigious cups at the Flower Show which include The Vice Chancellor's Cup, The Diamond Jubilee Cup, The Registrar's Cup, The Delhi School of Economics Cup, The India International Centre Cup, The Treasurer's Cup, The Devi Prasad Sarin Cup, The Ved Prakash Cup, The M. M. Beg cup and The Laxman Sarin Cup No.1 and The Kalicharan Aggarwal Award.
