

# DEPARTMENT OF ZOOLOGY

**DBT STAR STATUS** 

# ABOUT THE DEPARTMENT

Courses Department of Zoology was established in 1973. Courses offered by the Department include **B.Sc.** (H) Zoology, **B.Sc.** Life Sciences, M.Sc. Zoology and Ph. D. Zoology. There are 16 faculty members and 9 support staff.

An **Add-on Course on Medical Biotechnology** is offered since 2007. This self-financed 72-hr Certificate Course is taught by distinguished scientists from various research institutes such as AIIMS, ICGEB, IGIB, NII, VPCI, ICPO, ICMR, DBT, ACBR and DU.

The Department also offers a 50-hr self-financed **Add-on Course on Bioinformatics and** *in silico* **medicine** in collaboration with Department of Botany, MH, since 2014. Eminent scientists and expert resource persons from ICGEB, IGIB, RCB, NIT, JNU, DTU and DU are associated with this course.

Collaborative Programmes Science Setu, in collaboration with NII, has been initiated in 2015 to bridge the gap between teaching and research at an early stage of student nurturing to motivate them to pursue science as a career.

**Research Centres** 1. **CSIR Open Source Drug Discovery Centre**: Since 2010, CSIR has provided funding establishing OSDD Center for Research Projects which were carried out at DSKC, MH for the OSDD drug and vaccine discovery program. 2. **DSKC BioScience Research Laboratory**: A faculty member, Dr. S. Sharma is recognized by BRS, Faculty of Science for supervision of Ph. D. students.

**The Department Society,** *Synapse* A vibrant society that organizes several events such as panel discussions, special lectures, field trips and workshops throughout the year. Every year society releases its annual magazine, *Evolvere..the unfolding* with creative expressions from students, faculty and lab staff.

# **COURSE STRUCTURE**

FIRST YEAR	SEMESTER I	<ul> <li>CORE COURSES</li> <li>Non-chordates I: Protista to Pseudocoelomates</li> <li>Perspectives in Ecology</li> </ul>	Ability Enhancement Compulsory Course  o English Communication	Generic Elective 1
	SEMESTER II	<ul><li>CORE COURSES</li><li>Non-chordates II: Coelomates</li><li>Cell Biology</li></ul>	Ability Enhancement Compulsory Course  • Environmental Science	Generic Elective 2
SECOND YEAR	SEMESTER III	<ul> <li>CORE COURSES</li> <li>Diversity of Chordates</li> <li>Physiology: Controlling and Coordinating systems</li> <li>Fundamentals of Biochemistry</li> </ul>	Skill Enhancement Course  o Medical Diagnostics	Generic Elective 3
	SEMESTER IV	<ul> <li>CORE COURSES</li> <li>Comparative Anatomy of Vertebrates</li> <li>Physiology: Life Sustaining Systems</li> <li>Biochemistry of Metabolic processes</li> </ul>	Skill Enhancement Course  o Sericulture	Generic Elective 4
THIRD YEAR	SEMESTER V	<ul><li>CORE COURSES</li><li>Molecular Biology</li><li>Principles of Genetics</li></ul>	Discipline Specific Elective 1  Discipline Specific Elective 2	
	SEMESTER VI	CORE COURSES  o Developmental Biology	Discipline Specific Elective 3	

Department of Zoology also coordinates courses taught to students of B.Sc. Life
 Sciences along with Department of Botany.

**Discipline Specific Elective 4** 

**Evolutionary Biology** 

In addition, we also offer Biology I and Biology II (optional papers) to **B. El. Ed.** Students.

## **FACILITIES**

### Classrooms/laboratories with ICT facility

All the laboratories and lecture rooms are WiFi enabled and are equipped with LCD projection system. A visualizer with a projector for overhead projection of books and an Image Projection System for microscopy is also available.

### **Departmental library**

It has 400 books and 50 e-books.

### Museum

The museum has a repository of well-labeled vertebrate and invertebrate specimens, slides, histological sections, insects, skulls and bones.

### **Undergraduate Laboratories**

- Morphology, Ecology and Animal Behavior
- Physiology, Biochemistry, Cell and Molecular Biology

These laboratories are well-equipped with laminar flow hood, shaker incubator, spectrophotometer, centrifuges, microtome and binocular microscopes.

#### **Research Facilities**

The Department has dedicated facilities for DBT, DST, CSIR and DU funded projects:

- DSKC BioSciences Research Laboratory
- Textile Technology Laboratory housed in Entomology Room
- Biotechnology and Immunology Laboratory
- DSKC Undergraduate Research Laboratory

These are advanced instrumentation laboratories with animal cell culture facility, PCR machine, real time PCR machine, inverted phase contrast microscope, transilluminator, padding mangle, -20° freezer, -80° freezer, millipore water filtration system, among other basic instruments.

#### Other facilities

Library & Computer facility; Zoology Store; Preparation Room; Faculty Rooms

### INNOVATIVE TEACHING LEARNING PROCESS

**E-Museum** Digitization of specimens, histological sections, Developmental Biology and Cell Biology slides for detailing and ease of observation has been created through imaging system and mobile photography.

**E-Poster Presentations** In class room teaching, colloquium and seminars, E-poster presentations by students are encouraged.

Field-based Research Projects Learning in the field is emphasized through field based research projects on topics such as Metagenomics and Limnology.

Bridge Course Every year, students of first year are given special training to acquaint them with laboratory instruments, techniques and bio-safety protocols.

Motivational Talks Students are motivated towards science by interactions with eminent scientists such as Satayajit Rath (NII), Prof. D. N. Rao (AIIMS), Prof. Y Singh (IGIB). Students are also encouraged to attend special lectures such as Cell Press-TNQ India Distinguished Lectureship and CSIR open day to know recent advances in the field.

Educational Visits Every semester, visit to renowned institutions, specialized laboratories and conservations sites such as Aravali Biodiversity Park are being organized.

**Software & Web-Portals** Online as well as offline software are an integral part of the curriculum e.g. Phylip, Primer, MEGA, BLAST, Clustal W, Swiss Prot and other portals like NCBI, EMBL to name a few.

gi 1265181

### **EVENTS**

Inaugural lecture:

Gynaecological

Concerns in

Young Adults by

Dr. Tripti Sharan.

Panel discussion:

Peace for an

Anxious Mind.

Dr. Avneet Kaur.

Technology Information, Forecastin & Assessment Council TIFAC-DST at IIT Delhi. Second Prize in Extempore Speech Competition on theme: Impact of Exponential Technologies on Future of Human Species.

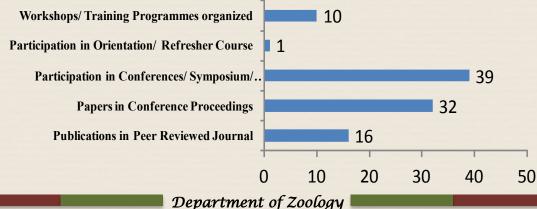

### WORKSHOPS AND EDUCATION TRIPS

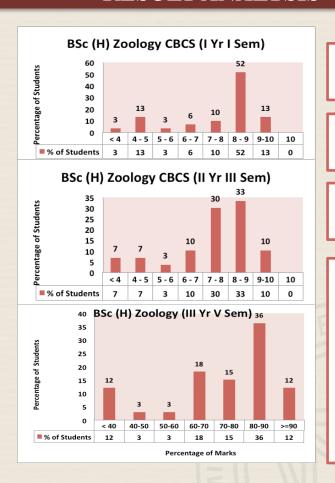

# **Departmental Activities 2016-17**

## **RESULT ANALYSIS**

#### I year(CBCS)

- •74% above 7 points
- •3% below 4 points

#### II year(CBCS)

- •73% above 7 points
- •7% below 4points

### III year (TYUP)

- 64% above 70 %
- •12 % below 40%

# Remedial measures to improve performance

- Build up confidence among underperformers by frequent mentormentee interactions
- Provide additional learning resources
- Formative assessment through tests and presentations to improve performance

# **AWARDS & RECOGNITION**

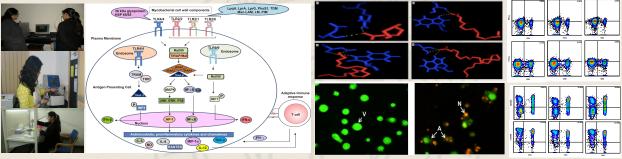

- DS Kothari Baseline Science Award, 2016-17: Ms. Asima Abidi, B.Sc. (H) Zoology III year.
- Ms. Udita Bansal worked in Kanha National Park, Madhya Pradesh, under program by Wildlife Institute of India, Dehradun studying ungulate behaviour and their habitat ecology.
- Summer Research Fellowship awarded to Ms. Asima Abidi by INSA-IAS-NASI at IIT Bombay.
- **First prize in poster presentation** to Arshia Bhat, Avni Gupta and Bhavya Sirohi in National seminar, Dept. of Science and Technology at Kalindi College, University of Delhi.
- Ms. Asima Abidi secured **Second position in Extempore** organized on Impact of Exponential Technologies on future of Human Species organized by TIFAC in **IIT Delhi.**
- Ms. Bindu Vats and Ms. Komal Ahlawat secured **1st prize in Inter-college Netball**; 1st prize in Erobern (MH) basketball and net ball; 1st prize in Institute of Home Economics in basketball; 2nd position in KMC in basketball.
- Ms. Anju Panghal won Silver medal in inter-college 5km walk organized by Delhi Sports Council; Gold medal in fresher's cross country organized by Dept. of Physical Education, MH.
- Ms. Udita Bansal participated in the **Summer Visiting Research Programme** in the School of Biology at **IISER**, Thiruvananthapuram. Kerala
- Ms. Shruti Acharya, Ms. Kanika Anabh, Ms. Garvita Goyal **presented a talk at Gandhi Bhawan** about the overwintering strategies of mosquitoes with Dr.Vimal Thareja.
- Many students received Book Grant scholarship from UGC.

### RESEARCH

Research Opportunities The Department is engaged in doing research by a multidisciplinary approach. Students from various academic levels i.e. undergraduates, postgraduates as well as Ph. D students are actively engaged in multiple projects. Doctoral research is carried out at BioScience Research Laboratory that is largely supported by major research projects sponsored by DST, DBT and CSIR. Various other research projects like DU Innovation Projects and Summer Internship Projects are providing a unique flavour of research to undergraduate students. We regularly publish our research work in high impact international peer reviewed journals. Two faculty members received teaching excellence award for innovative work in DU innovation project MH-203. A Ph.D. degree was awarded and a Ph.D. thesis has been submitted from BioScience Research Laboratory in 2016.

**Research Areas** The Department has two working groups i.e. Vaccine and Drug Discovery Group; and Environmental Group.

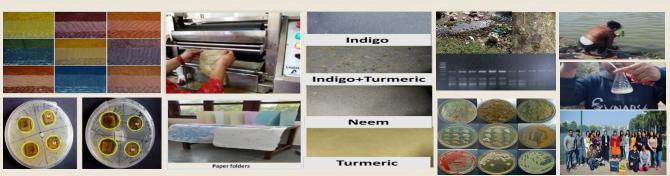

Vaccine and Drug Discovery Group is working on following aspects:

- -Modulation of Toll Like Receptor Signaling By Mycobacterium tuberculosis
- -Expression, Purification and Characterization of MymA Operon Protein Products of Mycobacterium tuberculosis
- -Molecular Cloning and Immunological Validation of Three Hypothetical Proteins of *M. tuberculosis* With Strong T-Cell Epitopes
- -Therapeutic Potential of Medicinal Plants: Culture, Extraction, Physicochemical Characterization and Testing their Cytotoxic or Immune-Stimulatory Properties

# Environment Group is working on the following aspects:

- -Natural dyeing and antimicrobial finishing of textiles with an eco-friendly approach
- -Azo free Handmade Paper Making with emphasis on 4R's approach
- -Screening for antibiotic producers and xenobiotic degraders using a metagenomics approach
- -Limnological studies on shallow lakes

# **FACULTY PROFILE**

NISHA VASHISHTA M.Phil, Ph.D. Specialization: Physiology

REKHA KUMARI
Ph.D.
Specialization:
Environmental Biotechnology

JYOTI ARORA M.Phil, Ph.D. Specialization: Limnology

SADHNA SHARMA Ph.D. Specialization: Molecular Immunology

ANJANA SINGHA M.Phil, Ph.D. (On Lien) Specialization: Entomology

MONIKA SHARMA Ph.D. Specialization: Molecular Immunology

SIMRAN JIT
Ph.D.
Specialization:
Environmental Biotechnology

POOJA SUMAN
Ph.D.
Specialization:
Environmental Toxicology

RICHA MISRA Ph.D. Specialization: Tuberculosis Biology

ANIL KUMAR M.Phil, Ph.D. Specialization: Cancer Biology

DEEPAK Ph.D. Specialization: Nanobiotechnology

VINEET GIRDHARWAL M.Sc. Specialization: Fish Biology

# **SUPPORT STAFF**

RAKESH KUMAR RAMESH SHARMA SANJAY DUTT

UDAY CHAUDHARY MUKESH MANIK DAAN SINGH

SURESH PRAJAPATI PUNEET RANGA KULDEEP SINGH
