PREFACE

Miranda House, a College for Women, University of Delhi is privileged to participate in the second cycle of the National Assessment and Accreditation Council (NAAC). The participation of the college in the first cycle of NAAC in 2016 provided much-needed guidance and direction for action. The integration of the college's rich legacy, with the dynamism and need for higher education in contemporary times, has been facilitated by the evaluative metrics of the NAAC. The flight of the institution is beyond its brick-and-mortar and is to be measured in the strides taken by its stakeholders - students, non-teaching staff, faculty, and alumnae. The NAAC directions and suggestions have helped Miranda House improve and raise benchmarks of institutional performance. This has led us to a position where the college has successfully sustained NIRF Rank 1 amongst colleges in India, conferred by the Ministry of Education, Government of India.

The process of this SSR writing is an outcome of the collective and collaborative effort of all the stakeholders. This process was carefully designed keeping in mind institutional memory, the significance of empirical data and the relevance of conceptual clarity. The NAAC Steering Committee consists of the Principal in-Chair, Bursar, former and present IQAC coordinators, and faculty members. The data collection, collation, and SSR writing were completed in multiple stages. The qualitative and quantitative metric of each criterion was supervised by faculty members. They were also associated with providing other forms of support including brainstorming and reflecting on the collected information. Each department and co-curricular and extracurricular societies were involved in fine-tuning their annual reports and reflecting on their activities as per the seven criteria of the NAAC SSR. Present faculty as well as superannuated faculty across departments, age groups, and expertise, have contributed to the drafting of this SSR. The office staff played a vital role in providing required data and other relevant information. Students and alumnae have creatively contributed to this process. A major technical role was played by Ms Shelly Jeena, in the office of the Principal, who diligently supported each stakeholder and helped in synchronising all the elements of the report.

It is my honour and privilege, on behalf of the college, to thank each member who has supported the preparation of this SSR. This report brings together a comprehensive record of the evolution and growth of the college through the last five years of its journey. We hope this documentation of the institutional performance through stringent evaluative metrics will act as a resource in the field of higher education for the college and the larger community.

Professor Bijayalaxmi Nanda
